

Lee R. Lambert, PMP®

PMI Professional Development Provider of the Year 2007

Nominated for the PMI Fellow Award (to be announced at the Orlando Global Congress)

A native of Provo, Utah, Mr. Lambert has established the standard against which others in the field are measured. In 1981 he was invited to join the founding team that created the Project Management Institute's (PMI) Project Management Professional (PMP) Certification Program. He is a recipient of the PMI's Distinguished Contribution Award (1995) and is a PMI SME for the EVMS Practice Guide and the Project Estimating Practice Guide (in development). Educated as a Mechanical Engineer, he is a holder of a Master's Certificate in Project Management from George Washington University.

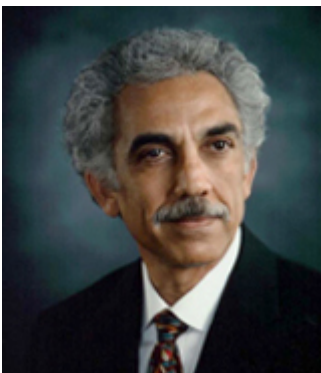

As the creator of the "Stealth Learning" concept, no other educator/speaker can contend with his uncanny technical knowledge, unique material content and refreshingly entertaining delivery of this "dry" topic. Lee takes the saying; "Been there, done that, got the T-shirt" to the next level. Since embarking on his PM journey in 1966, he has "entertained" and educated more than 40,000 professionals in 22 countries.

PMI-NU Professional Development Day 2009 Empowered to Calm the Waves of Change

- Speaker Bios -

Brad Carroll, PMP

Brad Carroll, PMP is the Director of the Program Management Office for the Information Technology Services at the University of Utah Hospitals and Clinics. Previously, he spent eleven years at COMSYS IT PARTNERS as a Senior Project Manager in the Project Management Office.

Brad holds a B.S in Engineering and an M.S. in Technology from Arizona State University. Brad has managed over 40 full-lifecycle projects in a wide range of technology and business organizations. His project management and business analysis experiences have been used by a variety of Fortune 500 Companies that include 20th Century Fox, Franklin Covey, Flying J Inc, Siebel Systems, Iomega and the States of California, Utah, Arizona and Montana. Brad has spoken to audiences in government and private industry on project management topics that include: Software Development Lifecycles, effective project scoping and testing methodology, Requirements and Business Analysis.

In addition to his interest in project management, he has developed an expertise and passion for Object Oriented Business Analysis using the Unified Modeling Language. He has taught course-work and workshops in project management, requirements engineering, negotiation, facilitation, decision making and Object Oriented Analysis and Design. In addition, he has presented at the Project Management Institute's national conference for Information Systems Special Interest Group workshops at the 2005, 2006 & 2007 Project World & Congress for Business Analysis.

Brad serves on several governing boards, including his most recent roles as Chairman of the Board of Trustees of the Living Planet Aquarium in Salt Lake City.

Laurel Miller, PMP

Mr. Laurel Miller is a Director of IT and has responsibility for Data Center Operations, IT Quality Assurance, and the Internal Help Desk at Nu Skin Enterprises, Provo, Utah, USA, within the IT's Global Infrastructure Department. He was awarded his PMP in November 2002. He is a past member of the Board of Directors for the Northern Utah Chapter of the PMI. He holds a Bachelor of Science degree in Electrical Engineering from Utah State University. He later earned a Masters of Engineering Administration from the University of Utah. He has spent his professional career working in a variety of industries including semiconductors, oil and gas, hand-held computers, and software development — usually associated with the application of technology to meet business challenges and almost always associated with projects.

Laurel has a strong civic commitment and has served his community in various capacities including both appointments and elected positions. He has been trusted with positions of responsibility including the spending of funds for year-over-year improvements. He encourages young professionals to pursue professionalism in their careers and has volunteered to teach and counsel others in their pursuit of project management success.
